

VILLAGE OF BENTLEYVILLE, OHIO
PARKS, FACILITIES AND BEAUTIFICATION COMMITTEE
JUNE 3, 2019 MEETING
MINUTES

ATTENDEES:

- Kathleen Hale
- Kathleen Esposito
- Lloyd Nagle

MEETING WAS CALLED TO ORDER at 10:00 AM.

The Minutes for the April meeting of the Committee were incorrectly sent out instead of the May Minutes. The correct Minutes for May have been sent out, and will be reviewed for the next meeting, along with the June Minutes.

SERVICE DIRECTOR'S REPORT:

- Power washing and painting of Village Hall: Two quotes have been submitted for the work, and two other companies have been contacted. The Committee instructed the Service Director to prepare the collected bids to present to Council at its next meeting.
- Power washing of the roof of the Park Pavilion: Three contractors have submitted bids for the project. A fourth has been recommended by the Village Engineer, and the Service Director will contact that company to solicit a bid. The Committee instructed the Service Director to prepare the collected bids to present to Council at its next meeting.
- The donation by resident and Council Rep Terry Hemmelgarn of a refurbished John Deere riding mower has been gratefully accepted by the Village and the Service Department. It will be put to good use. Thank you, Terry.

OLD BUSINESS:

- Parks Calendar, as revised, has been submitted for inclusion with the Village Newsletter, which should be going out to the printer today.
- The Committee wishes to thank Eagle Scout Mitchell Chapic for a job well done in restoring and installing the historical Bentleyville school bell and the door of Village Hall. An explanatory plaque installed with the bell does valuable service in maintaining and communicating the history of Bentleyville.
- The Committee discussed the plantings carried out by the Garden Club of Bentleyville at Daffodil Hill. We will discuss with resident Tammi Munson, who supervised the plantings, to confirm what plants have been added. Additional plants may be purchased and planted to supplement those plantings.

THE MEETING WAS ADJOURNED AT 10:27 AM.

The next meeting will be held July 10, 2019.

Respectfully submitted,
Kathleen Hale
