MINUTES

ATTENDEES

- Kathleen Hale
- Kathleen Esposito
- Bonnie Borman
- Ken Kvacek
- Chief Gabe Barone joined the meeting in process

CALLED TO ORDER 10:05

REVIEW OF PREVIOUS MINUTES;

SERVICE DIRECTOR'S REPORT:

Due to Lake Effect snow and being short-staffed, the Service Director was not in attendance, because he was plowing snow. The Committee commended the Service Department for taking down and storing the Village Holiday ornaments.

NEW BUSINESS

- Ken Kvacek suggested that we explore a “pole drop” electrical connection, to add extra convenience and accessibility for future Holiday lighting. The Illuminating Company should be contacted, perhaps through the Utilities Committee. Other areas that might benefit are Daffodil Hill and the crabapple trees lining Solon Road from Quarry Rock to Daffodil Hill. Kathleen Hale will discuss with the Utilities.
- Kathleen Hale suggested setting up a Bentleyville Neighbors Facebook page, along the lines of Chagrin Block Club or Chagrin Valley Trails Facebook, to foster resident communication.
- Ken Kvacek tells us that there may be three Eagle Scout projects in the pipe for 2020, and invited the Committee to think of what projects we would like to pursue, and prioritize them.
- Kathleen Esposito will rough out a Parks Calendar for 2020. We will probably have one concert in the Park in the summer. And yoga is planned for the summer of 2020, from the middle of June through the middle of August, on Tuesdays. Bocce will be scheduled as well.

OLD BUSINESS

- There is no update on Village Hall radiant wall heater repair or security peephole installation because the Service Director is not present.
- NOPEC Energy Grant: while the 2019 submission period has passed, NOPEC will allow us to reapply in January 2020. We will check whether the installation of pole drops would be reimbursable.
- Kathleen Hale will explore ways to label the mailbox to be installed in the Park for Wildlife Guides for loan.
